

ARTIFICIAL PASSENGER WITH CONDITION SENSORS

Abstract of the Disclosure

5 A situation controller for a vehicle. The situation controller includes a processing device and an image monitor coupled to the processing device, for monitoring images associated with one or more items within the vehicle. The situation controller also includes a device for communicating a message relating to the one or more monitored items wherein the content of the message is determined by the processing device based at least in part on the one or more
10 monitored items. Additionally, a controller coupled to the processing device, for controlling at least one function of the vehicle in response to the one or more monitored items within the vehicle, is included.
